ICA INTERNATIONAL CONFERENCE

Why CPTED? Creating liveable environments

CALL FOR ABSTRACTS

The **ICA (International CPTED Association)**,
the **Safer Sweden Foundation**, and the **City of Helsingborg, Sweden**,
are delighted to release this call for abstracts for presentations at the
2021 ICA Conference to be hosted virtually from Sweden from
2 to 4 November 2021.

While the global pandemic has prevented us from coming together in person, it has also presented us with an opportunity to involve more people from our larger CPTED community in the conference.

We are particularly excited to celebrate the **25th Anniversary of the ICA** with all of you.

The theme of the 2021 conference is ***Why CPTED? Creating liveable environments***.

Guided by this theme, delegates will gain a better understanding of CPTED and have the opportunity to share knowledge and experiences, discuss successes and pitfalls, and consider ways of integrating CPTED into their efforts to create safer communities.

This theme is relevant to those who are only just starting to explore CPTED, experienced researchers and practitioners, representatives from government and non-governmental organisations, and the general public interested in creating safer and more liveable environments.

If you would like to join us as a presenter at the conference,
please submit an abstract as outlined below.

Primary presenters are eligible for a reduced conference fee!

Possible presentation topics

Presentations should be guided by the theme of the conference, but could deal with a variety of topics, including the following:

How does CPTED contribute to the creation of liveable environments?	Collaboration, engagement, and inclusion: managing competing and shared interests
[Mis]understanding CPTED and its principles	CPTED – for whom, by whom?
CPTED buy-in by various role players	The evolution of CPTED
Financial constraints and opportunities in implementing CPTED initiatives	CPTED in the pandemic and in the post-pandemic world
Putting CPTED theory into practice	Planning smart, safe and inclusive cities
CPTED's role in building resilient and sustainable neighbourhoods	The multiple interpretations of CPTED – international commonalities and differences

Abstract submission and important dates

Submit your abstract by
Tuesday, 10 August 2021

Please use the [attached template](#) for all submissions and send it to
ICA2021@cpted.net

You will be notified whether your abstract has been accepted or not by
Tuesday, 31 August 2021

Successful submitters will be provided with information regarding the time allocated for their presentations and the logistical arrangements of the online conference.

Early bird registration will open on
Monday, 30 August 2021
