

# SafeGrowth

## 1st and 2nd Generation CPTED

### crime prevention through environmental design

**We can create safer places through the design and management of our environments**

AlterNation

City of  
Saskatoon

### Vision

This is an opportunity to attend an innovative and updated training program in safe urban design. This course encompasses 1st and 2nd generation **CPTED principles** and builds upon these to introduce participants to the most recent community based crime prevention model called **SafeGrowth**. Participants will work in small groups in a multi-disciplinary, interactive fashion on real life projects. This allows participants to practice basic concepts and develop initial

### Who Should Attend?

This workshop is designed for anyone concerned with crime prevention, safe growth, and community development, including:

- City Planners
- Architects
- Landscape Architects
- Police and Fire
- Engineers
- Parks Planners/Maintenance
- Facilities/Project Managers
- School Division Staff
- Security Officers
- School Campus Managers
