

# CPTED:

(CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN)

## INTEGRATING PUBLIC SAFETY & SECURITY IN THE DESIGN OF SMART CITIES

Research shows that Security is most effective when Integrated in Design & Planning  
What does that mean and what do we need to do?

What are Smart cities and what makes them smart?  
How does this concept relate to the Indian context, mindset and economies?

What is CPTED and how does it impact urban living?  
How does it impact policing for Smart and conventional Cities?

How can you use CPTED to make your domains secure and smart?  
How can design and planning complement Security & Police?

### THE HOSTS

**INDIAN POLICE FOUNDATION** is a multi-disciplinary think tank dedicated to work for police reform and the improvement of policing through research, capacity building and policy advocacy. The Foundation is driven by a coalition of progressive police professionals and citizen stakeholders who believe that positive transformation

Police is possible, through collective action by the police, citizenry, the State and Central Governments as well as the political leadership. The Foundation is governed by an eminent Board, whose members include serving and retired police officers, civil servants and thought leaders from civil society, academia, media, industry and the legal profession.

**INTERNATIONAL CPTED ASSOCIATION (ICA)** is the global control point for all theory and research on the subject OF Crime Prevention Through Environmental Design (CPTED) across the globe and also affiliated to other such regional thought centers like the **Association for Building Security India (ABSI)**.

In its efforts to propagate the methodologies and principles of CPTED across the globe, ICA is known for its high level of webinars held periodically based on global research, highest standards and ethics.

**ASSOCIATION FOR BUILDING SECURITY- INDIA** (a not-for-profit society and Indian chapter of ICA) is into research based application and contextualisation of the CPTED concepts, public advocacy (with workshops and lectures), intervention projects contributing as much to the global know-how as learn from them.

TOWARDS SECURE BUILDINGS TODAY  
.....AND BUILDING A SECURE TOMMOROW

ABS India is the first in the country to be bridging the fields of security and design to carve and shape MORE SECURE, RESILIENT & LIVABLE CITIES. Know more about us at [www.buildingsecurityindia.com](http://www.buildingsecurityindia.com) .

**SEQURE standards** for design of buildings with integrated and embedded security are a joint venture of ABSI & ISAC. The first ever standards and rating system to incentivise, integrate and enhance the efficiency of security in the built environment.
